

Are you looking for a way to have a more meaningful impact on your patients and community? At MissionPoint, our Health Partners are the heart and soul of our organization. Our Nurse Health Partners are working with patients each day to meet them wherever they may be on their journey to health. We give our clinicians the tools, resources and plenty of time to take with each patient to coach, educate and most importantly, care for their patients. Isn't that why you became a nurse? Come join our growing company as we expand our services. MissionPoint...the way healthcare should be.

**Our Health Partners are responsible for the following:**

- Assurance that a member utilizes network and suggests or refers for acquisition of community resources to better health outcomes.
- Coordination of network resources to demonstrate financial stewardship
- Development, execution and coordination of member's plan of care, with an emphasis on the most complicated cases.
- Utilization of quality and population data to design processes and programs that support Mission Point and the members it serves.
- Identify members and episodes (such as care transitions) that would most benefit from care coordination based on program objectives and member's risk.
- Develops and executes member's plan of care including appropriate protocols and care paths for all level of clinical complexity.
- Provide care coordination of plan of care and including member's additional care needs.
- Help member develop and define health goals
- Communicate goals and patient status to partners of the member's healthcare team, often acting as patient advocate.
- Use of appropriate IT platforms to communicate and store information and evaluate outcomes
- Systemically work with others in MissionPoint's Network to ensure we are engaging patients throughout the network and at each point of care, healing and wellness
- Identification of opportunities for and provision of elements of health maintenance and population management including wellness and activation objectives for both the population and individual member.

**Health Partner Qualifications:**

- RN (Associates or Bachelors), minimum education: Associates degree in health related field
- Minimum experience: 2 years in health related field required, preference in an acute care, ambulatory or home care setting.
- Certified Health Coach preferred.
- Exceptional interpersonal skills with a history of working with both customers and physicians
- Resourcefulness and innovation to design meaningful member activities
- Comfort working with web based applications and clinical data as well as application of that data.

**Normal business hours Monday-Friday, 8:00am – 5:00pm with one Saturday a quarter (if you work a Saturday. you get a weekday off that week!)**

**Excellent and comprehensive benefit package.**
