

Are you ready to make a career change that will take all of the knowledge that you've gained and bring it to an organization committed to improving health care in new and innovative ways? As a Health Partner, Integrative Care, you'll work closely with our clinical health partners and their clients, identifying needs and finding resources to help our members get back to wholeness. You'll be empowered to find creative solutions for each member, surprise and delight, and you will feel the satisfaction in knowing that you are making a difference every day. Using our collaborative approach, you'll be an important part of the team of nurses, providers and other care takers developing health solutions based on each member's individual needs. We're changing health care at MissionPoint Health Partners. Find out if being that part of the change is in your future.

**Our Health Partners are responsible for the following:**

- Assurance that a member utilizes network and suggests or refers for acquisition of community resources to better health outcomes.
- Coordination of network resources to demonstrate financial stewardship
- Development, execution and coordination of member's plan of care, with an emphasis on the most complicated cases.
- Utilization of quality and population data to design processes and programs that support Mission Point and the members it serves.
- Identify members and episodes (such as care transitions) that would most benefit from care coordination based on program objectives and member's risk.
- Develops and executes member's plan of care including appropriate protocols and care paths for all level of clinical complexity.
- Provide care coordination of plan of care and including member's additional care needs.
- Help member develop and define health goals
- Communicate goals and patient status to partners of the member's healthcare team, often acting as patient advocate.
- Use of appropriate IT platforms to communicate and store information and evaluate outcomes
- Systemically work with others in MissionPoint's Network to ensure we are engaging patients throughout the network and at each point of care, healing and wellness
- Identification of opportunities for and provision of elements of health maintenance and population management including wellness and activation objectives for both the population and individual member.

**Health Partner IC Qualifications:**

- If you have at least 2 years experience in a health-related field (community based program, counseling or behavioral health) and a Master's degree in social work or counseling, this may be the position for you.
- Exceptional interpersonal skills with a history of working with both customers and physicians
- Resourcefulness and innovation to design meaningful member activities
- Comfort working with web based applications and clinical data as well as application of that data.

**Normal business hours Monday-Friday, 8:00am – 5:00pm**

**Excellent and comprehensive benefit package.**
